Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 17 July 2012.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ An election was made by the applicant in response to a restriction requirement set forth during the interview on ____; the restriction requirement and election have been incorporated into this action.

DETAILED ACTION

Applicants' arguments, filed July 17, 2012, have been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims

Claim Rejections - 35 USC § 103 – Obviousness (New Rejection)

Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Chang et al. (US 5,417,994).

Chang et al. disclose beverages including carbonated and noncarbonated beverages having a pH value ranging from 2.2 to 2.7 (col. 3, lines 8-13). One objective of the disclosed invention is to provide a preservative free beverage comprising vitamin or nutritional supplements (col. 2, lines 61-64). The compositions comprise a mixture of citric acid and phosphoric acid (col. 3, lines 17-20). The compositions further comprise sweeteners, such as high fructose corn syrup (col. 4, lines 22-29 and Examples). When a nutritional/vitamin supplement is added to the compositions they also preferably comprise sodium hexametaphosphate along with the acid combination. The

supplements are added in at least 10% of the US recommended daily allowance (col. 4, lines 30-39).

The prior art compositions do not contain any substantial quantities of calcium, or fluoride. See EXAMPLEs 13-16.

Chang et al. differ from the instant claim insofar as it does not disclose the directing step of the instant claim.

Chang et al. disclose that the nutritional/vitamin supplements are included in compositions comprising sodium hexametaphosphate and disclose the nutritional/vitamin supplements have daily recommended allowances. One of ordinary skill in the art would reasonably conclude that it would have been obvious to have ingested the carbonated compositions comprising sodium hexametaphosphate and a nutritional/vitamin supplement of Chang et al. daily to obtain its nutritional benefit daily.

The compositions of Chang et al. comprise the same components, a sodium hexametaphosphate; citric acid; and a sweetener, as the compositions of the instant claim. Therefore one of ordinary skill in the art would reasonably conclude that these compositions would also treat dental erosion, with a high expectation of success, because the compositions of Chang et al. are substantially the same as the compositions of the instant claim and therefore should have substantially the same properties.

Further, the Board of Appeals states "The Appellant recognizes that the average consumer of an acidic beverage, e.g., a cola product, appreciates the need for enamel erosion control." Therefore the Board of Appeals concludes "it is reasonable to find that

the average consumer of the acidic beverages of the prior art would also appreciate the need for enamel erosion control and thus be "in need of" enamel erosion control". See Decision page 7, paragraph 2. Based on the above recognition/appreciation, it would have been obvious to have been "directed" to drink the prior art beverages for that purpose.

Conclusion

Claim 23 is rejected.

No claim allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
